

**REFERENCE :** 561988-EPP-1-2015-1-IT-EPPKA2-CBHE-SP

**DESCRIPTION:** This project aims at enhancing and reinforcing the role and potential of HEIs in the development of employability in the Mediterranean countries by adopting a transversal entrepreneurial mind-set at the HEIs and by opening and structuring the dialogue between the universities, the enterprises and the policy makers, addressing in this way the four priority actions established by the EC, OECD and ETF report:

- Establish inter-ministerial commissions for entrepreneurial learning
- Establish a platform for the identification and exchange of good practices
- Strengthen co-operation among HEIs and promote links with business to foster entrepreneurship. Teacher networks with interest in entrepreneurship promotion should be encouraged and supported
- Establish an accredited Southern Mediterranean entrepreneurship network paying a particular attention to the gender dimension.
